

Change In Plan

Lawrence Snyder
University of Washington, Seattle

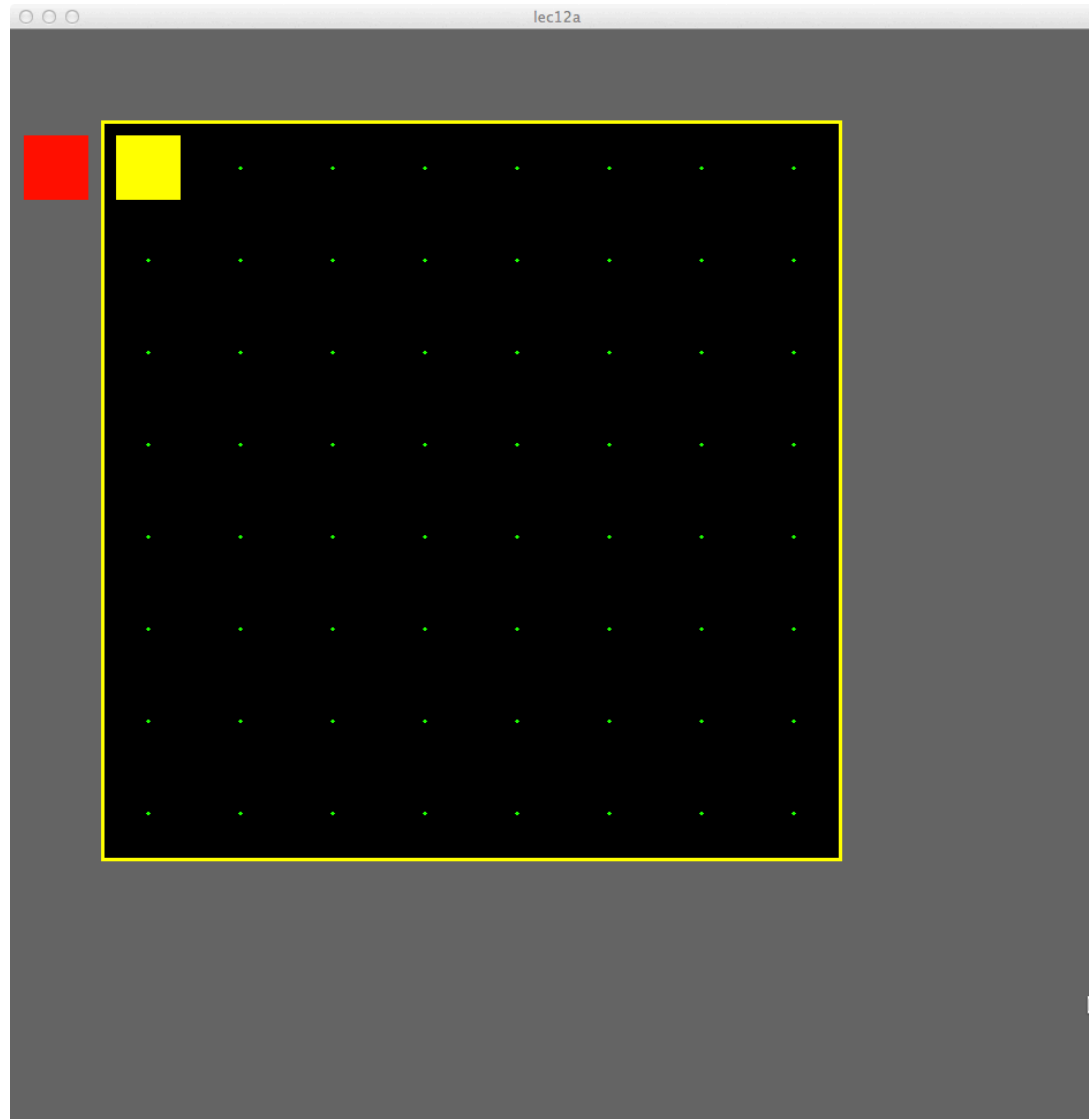

Plan For Today

- We will solve a problem (in its entirety) that is similar to Assignment 11.
 - Phase 1 is the set up ... so you know all the parts
 - Phase 2 is to make the motions ... so you see it go
- At the end there is a demo of Assignment 12
- Suggestions:
 - If you think you might need the code, copy it down
 - If you have a QUESTION, ask it ... today is for Q&A

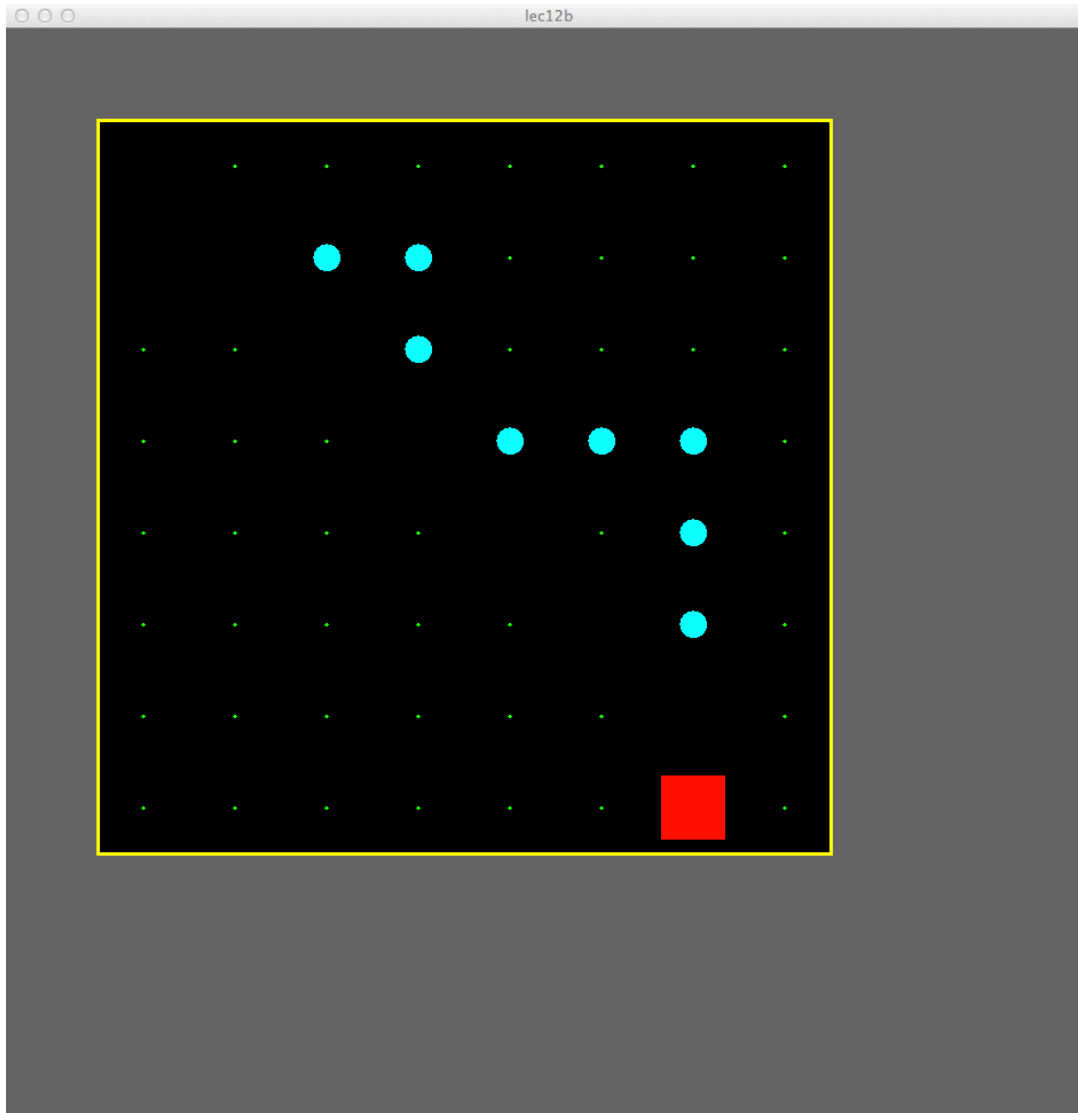

Assignment 11

Today's Example, Phase 1

Today's Example, Phase 2

Assignment 12 (Preview)
