

Lab 1: Connecting To Your Principles and To UW

Personal Values

This exercise was pioneered by a U. CO psychology instructor – we use it to get ourselves thinking about our own priorities; it is graded *superior/submitted/notsubmitted* [That means, we will not grade you on what you say, only if you made a sincere effort to do the exercise.]

Exercise: Think about the things that are important to who **you** are. Perhaps you believe it is important to always be honest. Perhaps you care about being creative; perhaps you want to make a contribution to society and count that as most important; or maybe you think it is essential to have a great sense of humor; possibly it's most important that you be "green," that is, environmentally conscious. What are the things that matter most to you?

Pick two or three of **your most important values**, and write about *why* they are important to you. What makes them matter to you? Explain how they *define* who you are. You've chosen these as important; should others choose them, too? You have at least a half hour, so give it serious thought.

You can write it online (Word Doc) or on paper; if on online, submit it at the class Dropbox (<https://catalyst.uw.edu/collectit/dropbox/snyder/30004>); if on paper, turn it in to your TA.

Questions About Lightbot 2.0

Wazzup? Need some explanation or help?

Your UW Web Page ...

We will be creating a simple Web page to show off the work we do in this class. This will require three steps:

- 1) Activate your personal Web space – today
- 2) Learn about the File Transfer Protocol (FTP) – next lab
- 3) Upload your Web page to your Web Space – next lab

Activating Shared Web Hosting

By default, web publishing services are not activated for a NetID when it is created or when affiliations change. You must manually activate web publishing services in order to create a website on the Shared Web Hosting platform.

Activating Web Publishing

1. Visit myuw.washington.edu
2. Click on "My Account" in the upper right corner.
3. Click on "Computing Services" on the left sidebar.
4. Check "Dante Account" or "Homer Account"
5. Check "Web Publishing" or "Student Web Publishing."
6. Click on "Subscribe."

Both a student and employee?

If you're a UW student who is also employed through the University, you will be eligible for both the student and employee web publishing services. The [multiple affiliations page](#) explains more about what will occur in this situation.
