

# CSE 120, Section 2

# Important Dates

Date and Time	Type	Assignment
Thursday, 1/9	Checkoff	Personal Values
Monday, 1/13	Homework <b><i>on Canvas</i></b>	Lightbot Functions
Thursday, 1/16 before 3:30pm	Reading Check <b><i>on Canvas</i></b>	Reading Check 2

# Personal Values

# Reading Presentations

- In Thursday sections this quarter, we'll ask you to form small groups (2-4) and create presentations based on the readings that you did for this week.
- You will be given about 15 minutes to prepare, and 3 minutes to present.
- A small amount of outside research during the preparation period is encouraged but not required.
- Presentation mediums will vary from week to week.

# Why?

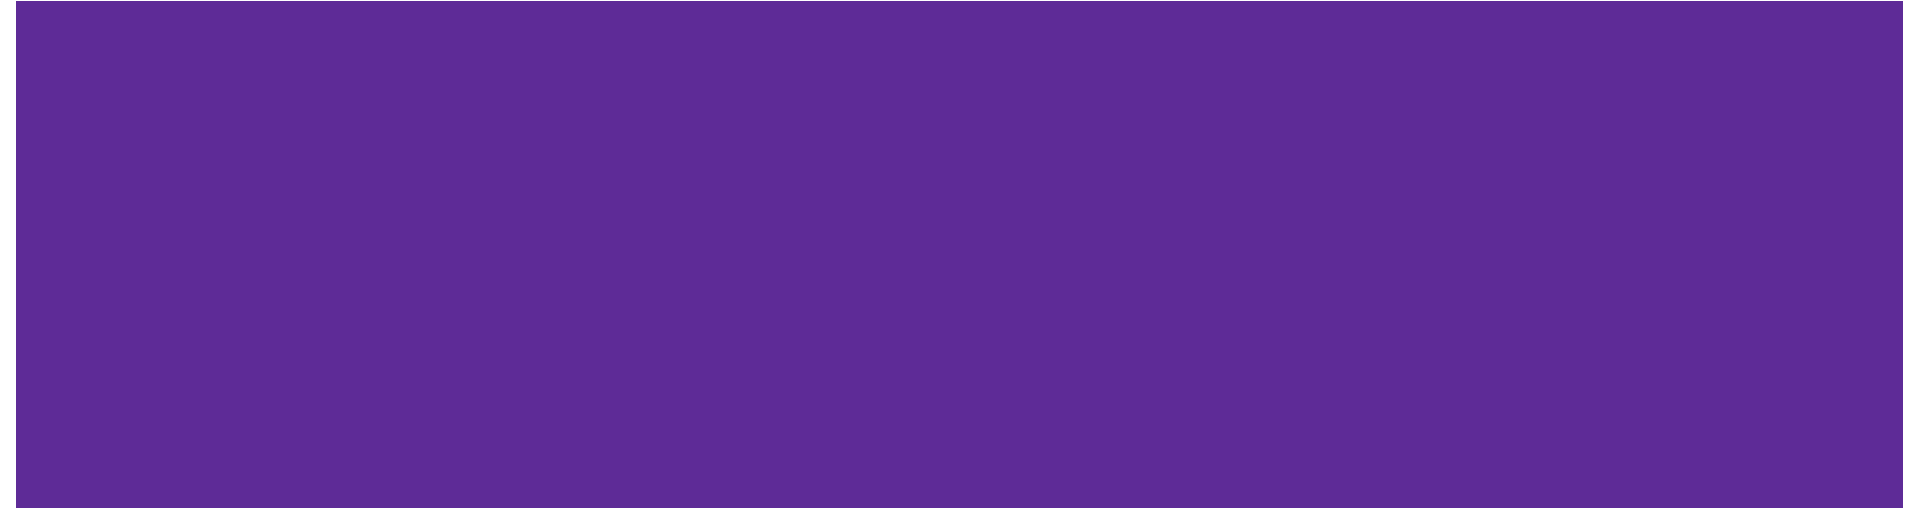

- Think critically about complex technical issues
- Contribute to a discussion in a way that you find interesting & relevant
- Practice your presentation skills

# Choosing a Topic

- Your presentations should be based on something from the readings that interests you, for example:
  - Explaining a tricky topic from the readings in a novel way (e.g., why computers use binary and not something else)
  - Relating a topic from the readings to something that you've experienced or studied in another course (e.g., the effects of exponential growth in other fields)
  - Persuading your audience of an opinion that you have based on what you read (and explaining why you hold it)
- Or something else entirely!

This week's medium:

# Whiteboard Outline

# Time to work!

- Checkoffs
  - Exploring Lightbot
  - Symbolic Lightbot
  - Personal Values
- Homework
  - Lightbot Functions
- Reading Check 2
