OneTeamMateAway

Making it easy to find teammates for extracurricular projects

Do more.

Kaleo Brandt, Kitson Lee

Features

- Project Categories (Social, scheduling, ...)
- Search by technology (Android, JavaScript, ...)
- Schedule integration
- Project recommendations by skills
- Integration with GitHub

Example UI
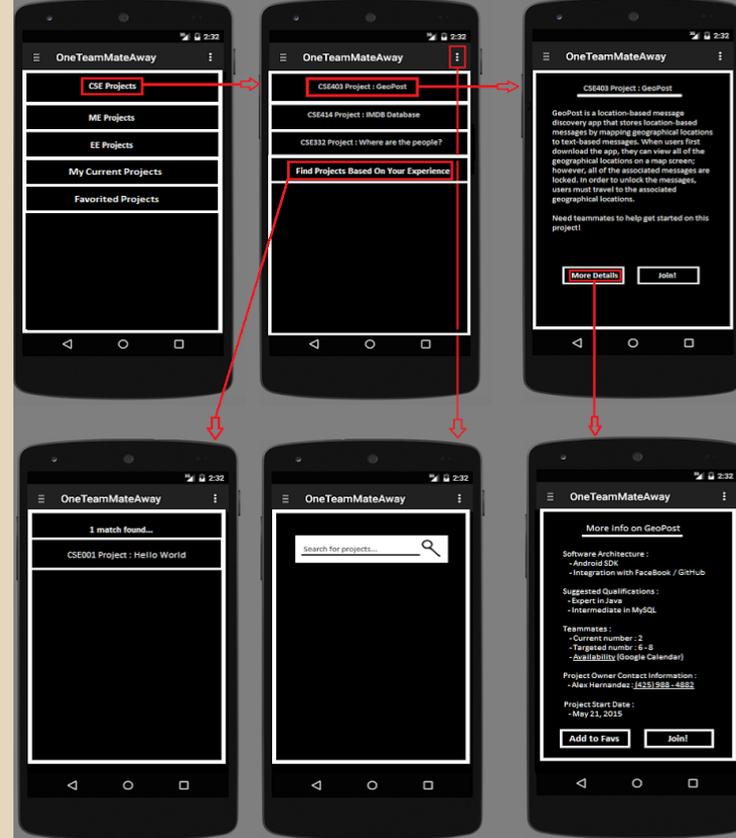

Risks/Challenges

- UI Design
  - Prototype can be refined before any implementation is done
- Target user base too small
  - Modularization for target expansion - other disciplines, universities.
- Learning curve of Android dev. / APIs
  - Focused meetings to bring all engineers up to speed
