

2014-02-12

- 1) Introductions
 - a. Name, year, major, where from, why this project is interesting, what you hope to get out of project/course, something about self that is non-CS related
 - b. Exchange email addresses etc.
 - c. Find at least one time each week that you can all get together
 - d. Decide on a place to store common docs, group meeting minutes etc. – give everyone access to this repo
- 2) Open up the document from last time and read it briefly
- 3) Open up slide deck posted for today – a DRAFT of the slides you will use for your final presentation in this class.
- 4) Looking at both of these, come up with a list of questions for us. We will visit your groups and try to answer them.
