

CSE P 501 – Compilers

Final Class
Hal Perkins
Autumn 2011

Plan for today

- Project logistics
- Four mini-lectures
 - Method inlining and devirtualization
 - Dynamic languages
 - Threads and memory models
 - Garbage Collection
- Course evaluations mid-way through

Project Meetings

- Project due Sunday 11 pm
- Writeups due Monday 11 pm
 - Short, info on web soon
- 20 minutes per group in regular rooms
 - Tuesday 12/15, 3 pm - ?, Microsoft classroom
 - Thursday 12/17, 4 pm - ?, UW CSE 548 (Perkins' office)
- Signups: doodles linked to course web shortly

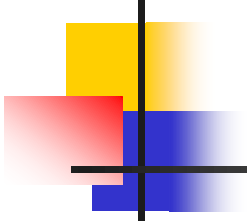

Course Evaluations

- Take 10 or 15 minutes, then break
- Collected at both locations and forwarded to Dave Rispoli who will combine them and send them in
 - (i.e, the bad guy who hands out grades doesn't see them until it's too late. ☺)
- We'll leave the room until you're done

Finis

- And that's it!
- Exams returned either at project meetings (optimistic) or drop by sometime to pick them up
 - Or tell me where to send yours...
- Have a great break!!
